G. Rend and Theodore Kuchler.

The deposition made by Lynch a few days before he died was read. In it he said that Brakeman Bain pushed him off the train under the wheels, which passed over his legs, crushing both of them hadly. The testimony of the train crew and the eye witnesses to the accident were in direct contradiction to each other. J. G. Burk and W. O. A. Madison, two men who were stealing a ride in the same car as Lynch, testified that at about 12, 30 Sunday morning they boarded the east bound R. G. Provo, Utah Co., June 10.—There was a large attedance of relatives and friends at the funeral services over the remains of Mrs. Sarah Ann Scott, held yesterday in the tabernacle. The speakers' stand was draped in white and tastefully decorated with plants and flowers and many beautiful floral offerings were placed on the casket. The speakers were: Bishop L. L. Nelson, Elders Abraham Halladay and Lars P. Nelson, Sister Elizabeth D. Brown, who spoke in behalf of the Relief Society, Elder Evan Wride, President David John and Elder J. M. Jensen. All spoke in loving terms of the useful life and noble character of the departed, and spoke words of consolation and hepe to the bereaved relatives.

The Second ward choir and a quariet composed of Mrs. Stella Hyde, Miss Ruth Peay, Samuel H. Jones and John Johnson rendered beautiful music. Six grandsons of the deceased officiated as pallbearers. A large cortege followed the remains to the cemetery. Conductor J. H. Sinister and front Brakeman J. A. Mackenzie told an entirely different story. They claim that after the men were discovered at Roy they were ordered out, and they all four they were ordered out, and they all, four got out, but when the train started up Lynch made a grab for it and missed his hold, falling between the cars with his face downward and the wheel passed over his legs, crushing them. That he was not pushed by any of the crew. The jury, after hearing the evidence, brought in a verdict that "Lynch came to his death at the Ogden General hospital as a result of accidentally falling under a moving train at or near Roy station, Weber county, Utah."

The remains of Lynch are still at Larkin & Son's morgue, where they will be kept awaiting burial instructions from his sister, who lives at East Cambarate. he kept awaiting burial instructions from his sister, who lives at East Cam-

TO INCREASE WATER SUPPLY

Engineer Doremus and F. S. Richards Discuss Strawberry Creek Proposition. Special Correspondence.

Special Correspondence.

Payson, Utah Co., June 8,—State Engineer Doremus and Atty, F. S. Richards were here tonight and held an enthusiastic meeting of the farmers and business men of Payson and surrounding towns, in the interest of the Strawberry creek proposition, which concerns the south end of Utah county.

Mr. Doremus spoke interestingly of the various propositions to increase the water supply of the valeys of Utah, Salt Lake and Cache. The diversion of the Strawberry and Bear rivers for use in Utah and Cache valleys would be of double use as it would percolate the soil and supri- Utah lake and natural water sources in the north of the state and thus increase the supply of water coming from those sources. It was Mr. Doremus belief that these valleys could be made to support one person to each acre of land. It was demonstrated that it would be much better for the government to prosecute this work than private corporations. It is necessary for the communities benefited to express their desire and encourage the government to prosecute the work.

Atty. Richards spoke interestingly in

courage the government to prosecute the work.

Atty. Richards spoke interestingly in explanation of the plan. The government will prosecute the work and the people will have ten years to reimburse the government without interest. Mr. Richards explained also some of the restrictions which will be made by the government, one of which will be that no person can procure a water right to more than 180 acres of land.

It was pointed out also that in the future it would be necessary to organize into associations in order to facilitate dealing with the government.

One of the objects of the visit of the gentlemen is to know whether the people are in accord with the plan of the commission and with the work that has already been done of a preliminary nature.

Mr. Hyrum Lemmon explained how a private committee had worked on the strawberry proposition as a private enterprise, before it was known the government had undertaken the project.

A resolution was read and adopted approving all the work of the commission, and urging the completion of the project.
